

MIX & MATCH URBAN SPIRIT

The spirit of the modern metropolis and the city skyline print onto the new CITY collection. Always in motion, the city has the constant urge for evolution.

Inspired by the contemporary world, Garnier-Thiebaut offers a refined and elegant interpretation of the building blocks of modernity in harmony with your home.

The combination of neutral colors reminds of the nuances of the urban landscape.

Shapes reflect the straight walls and the tangle of streets.

The ORIGAMI, PUZZLE and KAMI patterns present the image of artistic paving blocks you will see on the squares and sidewalks, in shades of beige and zinc. The tin color yarn, used in all designs, helps achieve the perfect combination between the two colors.

Be your own designer. Mix and match these fabrics to bring out the best contemporary look for your unique home.

PUZZLE

Like the pieces of a puzzle, geometric patterns endlessly repeat and allow all possible combinations!

KAMI

Kami means paper in Japanese; folded to resemble little hens the shapes create a swirl of organized turbulence.
